#### POLITICAL.

Under that most infemous "Act" of the most infamous hady of legislators in the world, Henry O'Mahone -an American cilizen-unaccused of any crime-tinar raigned-as the law demands-was arrest ed, and longuished in prison for monthswithout redrese; and the Republican Adrulnistration at Washington refused to In terfere in his behalt! Is it necessary to ash why? History has given the answer. "The curre of Swift was on him -he was en Irishman!" Yet Irish-American cilizens are, tolay, asked to vote for James G. Blaine, the paid official of the United States tiovern ment, who, thus -deserted the Irish-American "suspects" in the very beginning o their most urgant hour of need, and who now tries to put off on the shoulders of hiaucsessor, Frelinghuysen, the sine for which he himself is primarily and principally reeponelble. Our people are quick to judge; but they usually secule on the right side. And, in this case, we think thay will hardly concluda that Irish Americans owe any. thing to James G. Hislne for the assertion or vindication of their rights as citizens of this Republic .- [ New York Irish Ameri

The New York Tribune, which is Mr Illaine's principal organ, complimented the Plumed Knight in 1872 as follows:

"Tha startling exposure of Speaker Blaina's venality in connection with the Union l'actic road, Etstern Burision, en tirely destroys, of course, wha ever credit some people may have given to conside denial of the Oakes Ames bribery, and putthe whole case of the Credit Mobiler upon a different basis. . Now it is shown that Speaker Biaine never destroyed his good rejutation. He had taken beibes in anoth er case."

"We have shown Wr James G. Blaine (since the Speaker of Ce il ne and the monitor Charles Sumner on idaitty to prin ciple) at the Oakes Ames of the l'acific, rail. way, Eastern Devision; the Congressional procurer, wacee business was to place the stock where it would do the most good. The crushing force of the exposure has proved so tertible that something had to be put forward to lie out of it. The record against Bisine is made up of facia which have been established His corruptions have been exposed and de nounced not along by there who are now opposed to him, but by those also who are now his most realous supporters. Thay affect his public record. While smitching his own character ha has polluted a high public office and betrayed a public trust. The pretended charges against Claveland, on the other hand, ara baseless rumors so transparently false and calumni our that no reputable Blaine journal even will father them. To their credit, be i acid, the republican organs of the better class will not give them currency. They are as shallow as they are despicable, and are of the character of campaign canards, which every cerdidate can afford to pass without notice, - [New York World.

The compaign of slander against Gov ernor Cleveland has alcout spent itself. At circulation touching the bills he has sign duce the records, but the liars are un the retreat. The assault upon the thovernor's private character, made by a few diereputa ble and sensational newspapers, is based up on a scandal that exploded two years ago The reaction is now setting in, and Cirnver Cleveland will grow and increase from this day notil the 4th of November - [New York Sun.

dresses for weddings, now hires out black outlit for funerals - He philosopizes that grief is only temporarr, anyhow, and mourning goods are too expensive to luy.

-A shooting affray near Burne, Ky, rethe serious wounding of another man and woman The trouble grew out of Mrs. Alexemler's elopement with Cherles l'cole who did the shooling.

It is reported that a ruby that was found in Clay county, N. C, was sold by the finiler for \$15, then for \$3,000 and after being cut by a lapidary for \$18,000.

The English is a queer language. In England a "pony" is a £5 note; in this country, a glass of heer; in the dictionary, a small horse.

of American Agricultura. In evacuate and practi-cal contents, in estant and ability of correspon-dence, in quality of paper and a view of publica-tion, it occupies the first cank. It is believed to have no superior in either of the three chiaf divis-Farm Crops and Processes Horticulture & Fruit-Growing, Live Mock and Dairying; while it includes o'l miture derartments of rural

Interest, such as the Poultry Yard, Futumology, Bee-Keeplug, tireen House and Grapary Veter-inary Replies, Farm Questions and Auswers, Firelosry Replies, Farm Questions and Auswers, Fire-side Reading, Domestic Economy, and a summery of the news of the week. Its Market Reports are unusually complete, and much attention is paid to the prospects of the rups, est throwing light upon one of the most immeriant of all questions—there is Ruy and then to Sail. It is libererally illustrated, and is intended to supply. In a continually lucreosing degree, and in the less sense of the term, a
